

INSTANT COMPENSATION CARD

MAKE PROMPT PAYMENTS ANYWHERE IN YOUR VALUE CHAIN

The Wirecard Instant Compensation Card can be implemented to make one-time or recurring payments of any kind. With seamless integration into your existing real-time payment process, the solution allows you to tie compensation and rewards more directly to completion of desired actions while simultaneously increasing consumer satisfaction.

The Solution

Our solution offers clients a direct connection to our payment processing interface in order to create accounts and issue to Visa® or Mastercard® branded prepaid debit cards to new or returning consumers instantaneously. Using the flexibility of APIs, clients can add the payment as a part of any existing operational process or consumer interaction. The Wirecard Instant Compensation card provides cardholders with Zero Liability fraud protection, 24/7, multilingual Customer Service support, and complete control of their funds through the cardholder website.
