

VIRTUAL PAYMENT CARD

INTEGRATED DIGITAL PAYMENTS

FOR TODAY'S CONSUMER

Mobile usage and digitization are driving forces in the consumer marketplace. These factors, powered by generational and technological influences, are changing consumer expectations across all segments. Today's consumer is constantly connected and they expect the businesses they buy from to offer personal, fast, simple, and ubiquitous digital solutions. Our latest innovation complements your digital strategy by delivering payments seamlessly, with new opportunities for direct consumer interaction, increased efficiency, and quick-turn implementation.

Ask about our virtual demo.

The Solution

Our virtual card is designed to be an integrated brand channel which appeals to all demographics by enhancing both speed and accessibility. With one-click redemption, funds are immediately available for spend anywhere Visa® or Mastercard® cards are accepted online or easily integrated into a mobile wallet for spend at retail locations.

Key Benefits

- ▶ Reduce implementation timelines
- ▶ Enhance your consumer experience
- ▶ Drive online traffic and spend-back
- ▶ Increase convenience and security
- ▶ Eliminate escheatment responsibility

How it Works

- ▶ Payments are requested through bulk file or direct connect API
- ▶ Payment alerts are sent in real time via email or SMS
- ▶ With one-click, accounts can be registered via mobile, tablet, or desktop
- ▶ Virtual card is immediately available for online use or added to consumer's mobile wallet
